**MISSING INFORMATION - DEFAULT SPECIFICATION**

Where information is missing for some items we will assume these items will be made to match other windows/doors on the order.

Where information has not been provided on the order form, windows/doors will be **viewed from the outside** and have **silver/chrome handles/furniture**, concealed drainage with 150mm cill, **warm edge spacer bar**, clear glass, **400mm transom drop** and mullions will be **split equally if the window is less than 1450mm wide**. Wider windows will have a **mullion split of 650mm if an opening sash is specified**. Mid-rail height will be **840mm excluding cill**, doors will have small PVCU frame threshold.

If the trickle vent is not drawn on the window diagram, the production department will decide the position. If the trickle vent position is drawn but the trickle vent head/sash box is not ticked, a trickle vent will be fitted as per the drawing. Windows with a Slim Sash can only have the vent in the head with a concealed drip hood.

Windows/doors made using the above default specification because of missing information will be charged for even if the window/door is rejected by the customer.

If you specify a casement sash or entrance door/French door larger than the dimensions given below we will manufacture but will not guarantee the performance of the oversized item.

SIZE RESTRICTION FOR CASEMENT WINDOWS

Opening sash windows can be made to a maximum of 700mm width x 1300mm high for a side hung or to a maximum of height plus width of 2100mm for top hung sashes

If restrictors are used, the maximum top hung sash is 1200mm x 1200mm. The minimum size sash is 300mm x 300mm.

TILT & TURN SIZE RESTRICTION

The minimum width is 400mm and height is 350mm - the maximum width is 1440mm and height is 2440mm.

Note: The width cannot be more than one and a half times the height.

'A' RATING

Only windows with 57mm Kommerling/60mm Aluplast/Swish with a warm edge spacer are 'A' Rated.

A BFRC number is required for unglazed windows. The following products cannot be 'A' Rated: **windows with 6mm glass, large outer frame, Aluminium spacer bar, Tilt & Turn windows, Entrance/French doors. Casement windows with a floating mullion (French window).**

Where 'A' Rating has been specified on the order form and any of the above specification is required, the item will be manufactured without an 'A' Rating.

SIZE RESTRICTION FOR ENTRANCE/FRENCH DOORS

The maximum width of an entrance door including outer frame is 1084mm and for French doors is 2118mm including outerframe, maximum height 2234mm.

The maximum height without guarantee is 2384mm. The maximum side panel is 1500mm and the minimum is 428mm to accommodate a letterbox. A Door handle will only be fitted to the master door if the slave door is narrower than the master door.

DOOR PANEL SIZE RESTRICTIONS

Any door less than 840mm wide will not accommodate many of the infill panels.

The Bristol panel requires a door width of 894mm and the Oxford panel 874mm - please check availability for narrow doors.

Order forms for all products can be downloaded from <http://www.a-w-s.co.uk>

Additional information for Bays/Bow windows and Entrance & French doors including minimum door sizes for each infill door panel can also be downloaded.

Full specifications for products and our Terms & Conditions of Sale can be found on our website
